

Greetings all.

As I write this the Autumn rains are falling and our thoughts turn to the lifting of field grown trees and bagging up. We suspect that due to the unprecedented demand for plant stock in recent times, advanced grade stock will become a rarity in the future. That rarity will command a premium price! If you plan ahead, you could have some of that premium action. In this issue we offer APEX Nursery fertiliser, especially for advanced grade stock, at a never to be repeated price. Be in quick though because there are only 80 bags available at this price nationwide!

To complete the offering we have come up with some super deals on our Tough Bags, Euro-Tubs, ProPot Side Slot pots & bamboo stakes.

You will, no doubt, be aware that prices of all imported goods are going to rise. So, don't delay, grab these deals now because they won't last long. Call to secure your bargain today!

Cheers and good growing.
