

### Greetings all.

Recent weather has a real Spring feel to it. Bring it on I say; we're ready for it! Are you?

We suspect most nurseries are behind with their production; however be assured we have stock of the products you'll need and some really good deals too!

Our **SUPER DUTY** pots & tubs, whilst not suited to machine potting, are durable, 10 years or more even in the harsh uv of New Zealand, re-usable & made from recycled material. You can use them with a clear conscience you're doing the right thing by the environment. Let's face it, some pots claim to be recyclable, but who in NZ recycles pots? It's a 'have'! Let's **REDUCE** the use of virgin material, **RE-USE** as many times as possible and then dream of finding someone to **RECYCLE** dirty nursery pots.

**Cheers and good growing.**

From  
**\$1.38+**  
each

## PLANT SOAP SPRAY IT, NOW!

### FOR PEST SUPPRESSION –

Simply suffocates a wide range of biting & sucking insects right there on your plants. Aphid, Whitefly, mites, scale, Mealy bug and many more. Eggs, juveniles and adults. Non toxic, safe on pollinators and pest predators. Better for us and the environment.

### DE-WATERING EFFECT–

Plant Soap is a natural surfactant which, when sprayed on to the leaves & stems, prevents water from settling. This persistent effect denies wind blown or water borne fungal spores the conditions they need to germinate and attack your plants. It's all good!
