METRES Keep away from pools, ponds, and other bodies of water. When using potting media with higher cation exchange capacities use lower recommended rates of this formulation. When using supplemental liquid feed reduce the rate of this formulation accordingly. **APPLICATION PRECAUTIONS:** Trial before use of this product under your local growing conditions, application methods and desired rates. Avoid application to plants under stress. If mixed media is not used within one week, leach thoroughly before using. Product left in media for more than one week will lose longevity resulting in reduced release time and wasted Do not incorporate into media prior to steam sterilization. This product is not recommended for dibble applications. controlled release fertilizer.

Avoid the use of media processing equipment that could change the integrity of the polymer coating.
Avoid mounding of fertilizer against base of plant.
Iron and other plant nutrients can cause staining of cement.

To avoid buildup of soluble salts, occasional leaching may be necessary.
 CAUTION: Application of fertilizer materials containing molybdenum (Mo) may result in forage crops containing levels of molybdenum (Mo) that are toxic to ruminant animals.
